Who are we?

Arab Union of Quality Engineers

It is a community of quality seekers who use tools, ideas and expertise to make our world work better. Licensed in .... with the number ....., as a non-governmental and non-profit organization that was created with the aim of linking quality engineers in the Arab and International world, with the aim of individual and institutional cooperation in the field of quality engineering and management in all aspects and sectors. And networking between many parties who are passionate about quality and facilitating their work in order to reach our main goal, which is ... a better life.

Our Mission

Unite efforts and give everything possible to provide an ideal life for future generations in keeping with a better future era.

www.aupe.org

Our Goals

- Spreading the culture of quality and raising awareness of the importance of applying it in all aspects of work.
- Granting membership to individual and corporate quality engineers.
- Linking and networking between Arab and foreign engineers and quality makers.
- Supporting the capabilities of quality engineers and raising their level of performance in accordance with the latest international quality standards.
- Supporting the rights of union members and representing them before all parties in all international forums.
- Organizing conferences, seminars, workshops and training courses to enrich the knowledge and perceptions of the members of the Union.
- Promote honesty, integrity and ethical behavior in the quality assurance profession.
- Work on developing human capital in the union, by creating and supporting new leaders, activating voluntary participation, and promoting the values of social responsibility in the field of quality assurance.
- Encouraging excellence and professionalism by supporting distinguished members morally and financially.

Our Core Values

Optimum quality, professionalism, development, cooperation.

Terms and Conditions

Article (1): All accredited quality engineers, controllers, managers and consultants have the right to acquire membership in the Union .

Article (2): In order to acquire the Union 's membership, it is required to submit an application to the Union 's general secretariat to express a desire to acquire membership, according to which the entity wishing to join decides its commitment to the Union 's statute and its executive regulations, and undertakes to perform all the obligations stipulated therein, including the payment of the member's subscription.

Article (3): The General Administration of the Union issues a decision to accept the new member, based on the proposal of the Executive Council, and the member exercises the duties of membership immediately after the issuance of this decision.

Article (4): All members of the Union enjoy equality in rights, duties and freedom of expression.

Article (5): If a member commits acts that harm the Union or fails to perform the obligations determined by the Union 's statute or its executive regulations, the Union 's president issues a warning to stop working and return to performing his obligations. If he does not comply, the Union presents his order to the Executive Council, which suspends his membership. If the member does not perform his obligations after his membership has been suspended, the matter of canceling his membership shall be submitted to the General Administration at its next session.

Article (6): The General Administration may accept, as an observer, a member who does not meet one or more of the conditions for membership in the Union , or members who request observer membership, based on a recommendation from the Executive Council.
